MESSAGE FROM THE VICE CHAIR

Commerce Lexington, along with its many partners in the community, have championed the efforts of minority-owned businesses. The programs provided by Commerce Lexington's Community and Minority Business Development Division continue to exceed expectations by offering a level of service that is unmatched in many communities.

Minority- and women-owned businesses are important segments of our region's successful economy. In fact, according to the U.S. Small Business Administration, they outpace other businesses in terms of growth, while participating in a wide variety of industries.

Commerce Lexington's Community & Minority Business Development (CMBD) program works to promote and sustain the economic growth, development and self-sufficiency of ethnic minority-owned business owners and entrepreneurs. Minority businesses are offered strategic and business planning, procurement assistance, access to lending tools, and the expertise of a full complement of economic professionals.

Last year, Commerce Lexington celebrated 10-years of the Minority Business Accelerator. The opportunity has been put in place to assist scalable minority businesses that have the best opportunity to partner with large entities and companies and grow jobs here in the Fayette County MSA. To date, the program has assisted members with contracts of more than \$50 million dollars. The possibilities are still endless as we search for new minority-owned businesses to take part in the program.

With access to capital being the number one driver in growing a successful small business, one of Commerce Lexington's longstanding programs, the Access Loan Program through its 26 lenders, has facilitated nearly \$25 million dollars in loans to small businesses. Almost one-third of those loans were received by minority-owned businesses.

It has been seven years since Commerce Lexington was recognized as the nation's top chamber of commerce by the Association of Chamber of Commerce Executives. We have not remained idle. Since then, we have entertained many visits from other chambers to study our best practices and take them back to their respective homes. During the pandemic, the Community & Minority Business Development Division was chosen by the Lexington-Fayette Urban County government as the administrator of \$7.5 million in small business grants. The grants allowed small businesses to recoup some of their losses and open their businesses after a six-week shutdown. The small business grant requests were evaluated by a stellar group of volunteer lenders, and one of our local banks issued the funds. It was a win-win for Lexington and its small business community.

To complement programs like the Business Owners Advisory Boards and the Member-to-Member Discount Program, Commerce Lexington began offering a 6-week small business training program called Money Smart for Small Business. The Money Smart Program is SBA sanctioned, and offered through the Federal Deposit Insurance Corporation (FDIC) platform. We've had over 40 businesses take advantage of this training to fortify their businesses. These are just some of the opportunities that we offer to assist small and minority businesses with the growth and sustainability they need to survive and thrive. Commerce Lexington plans to stay at the forefront of assistance to small and minority-owned businesses.

As you read this letter, think of how you, as an emerging business owner, can take advantage of these services and opportunities to create a different and more exciting future for your business and the people you employ. It's time to get on board and reach for the stars, Central Kentucky!
